REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Chen et al. (US '526, see figs. 1-5) does not show or suggest "said thickness and said length are selected such that the power of reflections of microwave radiation by said microwave window are no more than about ten times the power of reflections at the minimum value" as recited in claim 1, lines 9-11. Claim 35, lines 10-13, and claim 41, lines 13-16, recite the same limitation. Moreover, Chen et al. does not show or suggest the method step recited in claim 45, lines 11-16 in combination of the specific location of the microwave window in relation to the flange.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
